## PRODUCT DESCRIPTION

Only 14" deep, the Stealth model: SR-2501 is a space saving short depth 2U Rack computer / server offering high performance in a small footprint chassis. The all steel 2U (3.5" high) chassis is only 14" in depth and will easily mount into shallow 19" rack cabinets.

Stealth's popular SR-2501 rack mountable machine utilizing the latest Intel® Core™ 12/13/14th Generation Core Processors delivering the ultimate in computing power and designed to meet your demanding application and business requirements. Stealth has carefully selected, tested and qualified the highest quality of components to ensure the utmost in total system performance, reliability and long operational life cycles.

Standard configurations include a PCIe riser card for add-in expansion cards as well as plenty of mass storage space (up to 28TB) for data archival.

Stealth Rack server products are designed to work on a continuous 24/7 basis yet are priced to meet your budget. Prior to shipping, each and every system is put through Stealth's rigorous QA burn-in procedure that is documented and controlled through our ISO 9001 quality system.
