Rugged Displays

"Built to Endure, Designed to Perform"

We are excited to present to you our Full Line up of Rugged Displays! Stealth offers sizes ranging from 15" to 24", Mounting Styles that include Panel, Rack, VESA and Open Frame, as well as your choice of Black Baked Enamel or Stainless-Steel Bezel options. Our bench includes products in Square and Wide Resolutions with many available as standard off-the-shelf solutions. Stealth Rugged Displays are constructed from solid steel and aluminum and will meet the demands of your application, no matter the environment: Wet, Dusty or Dirty.

Stealth offers two main Product Families of Displays to cover most of your needs.

- Our **SVZ Series** features a zero-bezel design that eliminates dust and debris build-up at the edge and corners of the Display. Each comes equipped with an environmentally sealed IP65 front panel and supports a wide-ranging 9-36VDC or 100 – 240V AC power input. Panel and VESA mounting is standard for each size, along with a PCAP Touchscreen.

- The **SV-Series** offers a variety of mounting options, including Panel, Rack and Open Frame. All are available with a Resistive Touchscreen interface. They are constructed from solid steel with an optional stainless steel (NEMA 4X/IP65) panel mount bezel available for added corrosion resistance. VAC power inputs are standard with support for a variety of VDC ranges available on select models.
