

Your Ultimate Stealth Experience Awaits!

We are excited to announce that the wait is over, and **the launch of our newly redesigned Stealth website is live**. As pioneers in rugged computing solutions, we understand the importance of reliability and efficiency—and now, we've translated that into a sleek, user-friendly digital platform.

Our new website is packed with **advanced features** and improvements designed to enhance your experience and make it easier than ever to explore, select, and purchase **the rugged-edge products you rely on**. Whether you're a long-time customer or a first-time visitor, we think you'll love what we've done to make our online store more robust, intuitive, and accessible.

What's new:

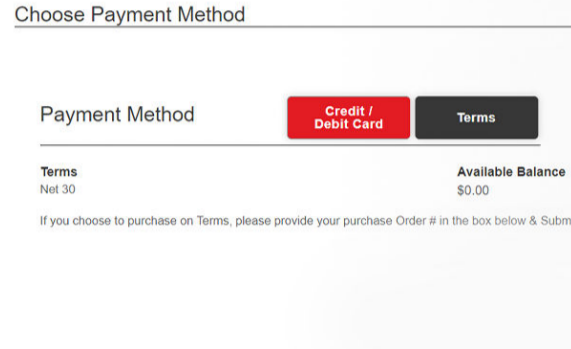

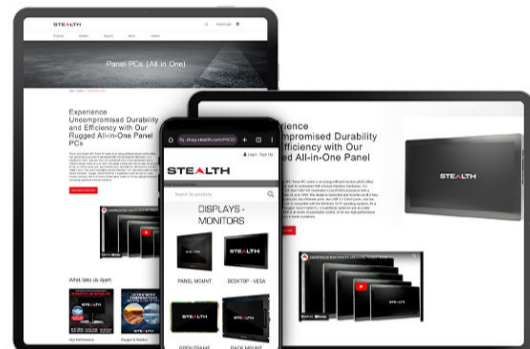

Sleek and Modern Design

Our completely revamped site boasts a clean, contemporary design that embodies the durability and power of our industrial-grade products. With improved product categorization and intuitive navigation, you can explore our products in a visually engaging way that makes browsing enjoyable and efficient.

Fully Revamped e-Store

We've completely re-engineered our e-Store to provide a smooth, hassle-free experience. The purchasing process is now quicker and seamless, thanks to product filtering and improved navigation. You can browse through products faster, view detailed specs and documentation, and compare products.

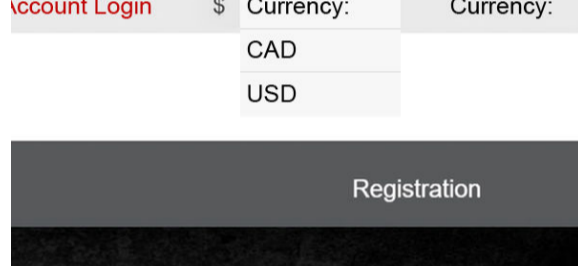

Multi-device Experience

Whether you're working from your office, in the field, or on the go, our site is designed to adapt to any device. We've enhanced the mobile experience to ensure that browsing, selecting products, and making purchases are just as easy on your smartphone or tablet as they are on your desktop.

Expanded Payment Options

We know every business has unique needs, which is why we now offer more flexibility with payment options. In addition to accepting major credit cards, we also provide the option for qualified customers to purchase on terms, offering convenience for large-scale orders or long-term projects.

Dual Currency Support

We've introduced dual currency support! Now, you can shop in \$USD or \$CAD, depending on your location, making transactions easier. No more guessing currency conversion rates—just choose your preferred currency in your account registration.

Full ERP Integration

Our website is now fully integrated with our ERP system to provide real-time inventory and order updates, making your experience faster and more reliable.

Are you having trouble creating a new account?

Please check your inbox and junk/spam folder for an email with account or password reset instructions, as strict security protocols from your email provider may prevent it from appearing in your main inbox. If this happens, please add Stealth.com to your safe sender list (whitelist).

If the new website isn't displaying, **try clearing your cache by pressing SHIFT+F5**. Please feel free to reach out to us if you experience any issues.

Thank you for continuing to trust Stealth for your high-performance rugged computing needs.

Best regards, The Stealth Team
