

STEALTH

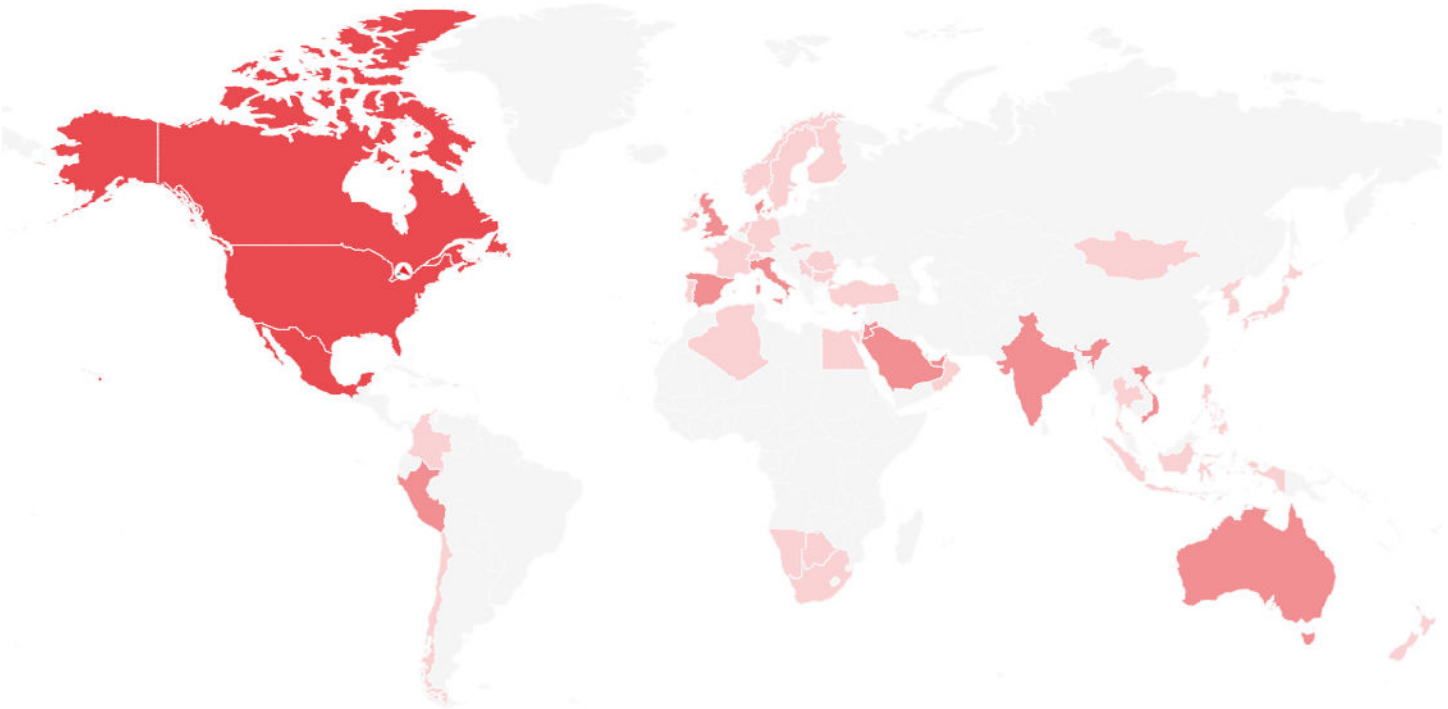

Why Stealth?

With over 35 years of experience, Stealth provides rugged, high-performance computing solutions for extreme environments across industries like defense, industrial, and utilities. ISO 9001-2015 certified and known for innovation, Stealth's durable products withstand harsh conditions and are trusted by global clients for mission-critical reliability.

- In-house product development and **North America-based** manufacturing.
- **Custom Capabilities** - Products designed and configured for your needs.
- Extended **life cycle support** for long life products.
- **Global Market Reach** - Selling products in all regions across the world.

■ Primary Market ■ Secondary Market ■ Tertiary Market

Need a specific product or a specific solution?

Our ability to offer you the options of Built to Order (BTO), Customized Product Configurations, System Integration or Custom Designed solutions gives you the flexibility to get exactly what you need for your applications.

OUR INDUSTRIES

Industrial

Rugged computers and displays offer reliable, durable performance in harsh factory settings, with sunlight-readable screens and versatile mounting options.

Defense

Defense-grade solutions withstand extreme conditions and meet military standards, ensuring reliable operation for mission-critical applications.

[Read More](#) [Shop](#)

Government

Secure, compliant, and long-lasting systems support government operations, with data protection features and dependable performance.

[Read More](#) [Shop](#)

Transportation and Marine

In-vehicle PCs endure constant vibration and voltage fluctuations, ideal for fleet, navigation, and emergency applications.

OUR PRODUCTS

Stealth provides rugged, high-performance solutions for defense, industrial, transportation, marine and many other sectors. Our rugged and versatile high performing products ensures reliable performance in extreme conditions.

Little PCs / Mini PCs

The Power of a Workstation in a Compact Design

Our LittlePC line offers both with fan and fanless mini PCs, from compact to expandable models with wide options of processors from Intel's Celeron, Atom, Core, Xeon and up to latest core **ultra series**, built for **24/7 reliability** in industrial, defense, and transportation and marine applications and many others.

In this product line

- Standard Series
- Wide Temperature
- Specialty PCs
- Rugged Portables

Key Features:

 Fanless

 Wide Temperature

 Wide Range DC Voltage

 TPM 2.0

 Shock and Vibration Resistant

 Expansions Slots Available

Panel PCs - All in One Solution

Durable, Efficient Performance with Rugged Panel PCs

The Stealth **SPC Series** offers energy-efficient, high-performance embedded HMI with up to Intel's 14th Gen Core-i processors. It's fanless, rugged, bezel-free, and features multiple ports, **ideal for automation and harsh environments**.

Key Features:

 Fanless

 Ultra Wide Temperature

 Wide Range DC Voltage

 TPM 2.0

 Shock and Vibration Resistant

 Multiple I/O Ports

Rugged Portables

Expert Engineering Meets Seamless Integration

The “StealthBox” is a highly configurable rugged computer workstation designed for people who require the power and expansion capability of a desktop PC in a portable package.

Key Features:

-  Substantial Storage Capacities
-  Rugged Aluminium Chassis
-  Multiple Expansions Slots

Rack PCs and Servers

Reliability, Performance, and Customization for Every Need

Stealth is a recognized leader that manufactures **high-performance 19" Rack PCs and Servers and Rack Mount PC** products for enterprise and industrial/commercial applications.

Key Features:

-  Fanless
-  Voltage Inputs (AC/DC)
-  1U, 2U, 3U and 4U sizes

Rack Mount KVM Displays

Where Control Meets Convenience

Stealth's Rack Mount KVM Displays are meticulously crafted to blend effortlessly into your IT infrastructure, offering **unparalleled clarity and streamlined functionality**. Designed with precision, these displays prioritize not only visual excellence but also robustness, ensuring they can withstand the challenges of rigorous daily operations.

Key Features:

-  Video Ports
-  CAT6/DB16 ports
-  Voltage Inputs (AC/DC)

Displays / Monitors

Versatile Performance: Your Vision, Our Technology

Our rugged displays provide **high-quality visuals and withstand harsh environments**, from industrial sites to outdoor settings. With options from indoor to sunlight-readable, they ensure durable, reliable performance. **Also available in Stainless Steel options.**

In this product line

- Panel Mount Displays
- Desktop/Vesa Displays
- Open Frame Displays
- Rack Mount Displays
- Mount Displays
- Speciality Displays

Key Features:

-  IP Rated
-  Wide Temperature
-  High Brightness (up to 1600 Nits)
-  Multiple I/O Ports
-  Wide Range DC Voltage
-  Multiple Touchscreens Options

Keyboards and Pointing Devices

Precision Made for Every Environment

Stealth's Industrial Keyboards and Pointing Devices are **long-lasting and stand up in environments** where your typical office-grade peripherals will not survive. Our rugged Keyboards, Trackballs, Pointing Devices and industrial Mouse products are sealed to **NEMA 4, 4X, 12, IP65 specifications** and are ideal for wet, dirty and harsh environments.

In this product line

- Keyboards
- Pointing Devices

Key Features:

-  IP Rated
-  LED backlight illumination
-  Versatile Mounting Options

Accessories

Elevate Your Setup with Stealth's Essential Accessories

Optimize and enhance your computing setups with our selection of accessories. From AC Power Adapters ensuring **consistent device performance** to precision-made mounting brackets for secure device positioning and KVM cables, **every accessory is crafted to pair with your Stealth equipment.**

In this product line

- Cables
- Mounting Brackets
- AC Adaptor / Power Supplies

Our Latest Launch!

At Stealth we are always innovating to offer our clients the best and latest in rugged computing.

Meet the new LPC 900 Series: Designed for harsh environments, these systems deliver unmatched reliability, AI-driven performance, and high-speed connectivity for fleet management, marine navigation, and mobile applications.

LPC 92x Ultra-compact, Built for the toughest journeys.

LPC 97x Unmatched Speed, Performance and Graphics.

LPC 98x High-Performance Computing, Anywhere.
